List of Programs

List each program for an initial teaching credential below and indicate whether it is offered at the Undergraduate level (UG), Postgraduate level (PG), or both. ([§205\(a\)\(C\)](#))

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- [Teacher Preparation Program](#)

THIS PAGE INCLUDES:

>> [List of Programs](#)

List of Programs

Note: This section is preloaded with the list of programs reported in the prior year's IPRC.

CIP Code	Teacher Preparation Programs	UG, PG, or Both	Update
13.1202	Elementary Education	UG	

Total number of teacher preparation programs:

1

Program Requirements

Check the elements required for admission (entry) into and completion (exit) from the program. If programs are offered at the undergraduate level and postgraduate level, complete the table for both types of programs. [\(\\$205\(a\)\(1\)\(C\)\(i\)\)](#)

THIS PAGE INCLUDES:

- >> [Undergraduate Requirements](#)
- >> [Postgraduate Requirements](#)
- >> [Supervised Clinical Experience](#)

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- [Full-time equivalent faculty supervising clinical experience](#)
- [Adjunct faculty supervising clinical experience](#)
- [Cooperating Teachers/PreK-12 Staff Supervising Clinical Experience](#)
- [Supervised clinical experience](#)

Undergraduate Requirements

Note: This section is preloaded from the prior year's IPRC.

1. Are there initial teacher certification programs at the undergraduate level?

- Yes
 No

If yes, for each element listed below, indicate if it is required for admission into or exit from any of your teacher preparation program(s) at the undergraduate level. If no, leave the table below blank (or [clear responses already entered](#)) then click save at the bottom of the page.

Element	Admission	Completion

3. What is the minimum GPA required for completing the program? (Leave blank if you indicated that a minimum GPA is not required in the table above.)

4. Please provide any additional information about the information provided above:

Supervised Clinical Experience

Note: The clinical experience requirements in this section are preloaded from the prior year's IPRC. Teacher preparation providers will enter the number of participants each year.

Provide the following information about supervised clinical experience in 2024-25. ([§205\(a\)\(1\)\(C\)\(iii\)](#), [§205\(a\)\(1\)\(C\)\(iv\)](#))

Are there programs with student teaching models?

- Yes
 No

If yes, provide the next two responses. If no, leave them blank.

Programs with student teaching models (most traditional programs)

Number of clock hours of supervised clinical experience required prior to student teaching

Number of clock hours required for student teaching

Are there programs in which candidates are the teacher of record?

- Yes
 No

If yes, provide the next two responses. If no, leave them blank.

Programs in which candidates are the teacher of record in a classroom during the program (many alternative programs)

Number of clock hours of supervised clinical experience required prior to teaching as the teacher of record in a classroom

Years required of teaching as the teacher of record in a classroom

All Programs

Number of full-time equivalent faculty supervising clinical experience during this academic year (IHE staff)

[Optional tool](#) for automatically calculating full-time equivalent faculty in the system

Number of adjunct faculty supervising clinical experience during this academic year (IHE staff)

Number of cooperating teachers/K-12 staff supervising clinical experience during this academic year

Number of students in supervised clinical experience during this academic year

Please provide any additional information about or descriptions of the supervised clinical experiences:

Field and Clinical Experience: The School of Education has secured Memoranda of Understanding (MOUs) with the following local school districts in Kansas: USD 497 Lawrence Public Schools, USD 491 Eudora Public Schools, and USD 469 Lansing Public Schools for field and clinical experience. Candidates who select their home community for the one-year clinical experience must identify the state, superintendent, and school district by October of the junior year to initiate the MOU process. This process can take six months or longer to complete and secure placement for the clinical experience. Since the inception of the one-year clinical residency experience in the fall of 2019, the School of Education has partnered with public and private schools in the following states: Arizona, Indiana, New Mexico, Arkansas, Missouri, Nebraska, and Virginia for the clinical experience. The School of Education collaborates with the school district's Human Resources Department to select host teachers for the field and clinical placement. Candidates are placed with a host teacher who meets the following criteria: veteran teacher with 3 or more years of teaching experience, hold a Kansas Seal of Literacy on his or her teaching license or have extensive training on Structured Literacy, and is teaching at the grade-level requested in the field or clinical experience. When possible, we place teacher candidates with Haskell alumni who are in their third year of teaching or higher for both field and clinical experience. The unique aspect of the program is the number of field and clinical experience hours embedded within it. Candidates begin early observation in EED 102 Exploration in Education, completing 30 hours of observation across three grade bands to determine whether education is the career path of choice. Candidates begin with prekindergarten by observing in 3- and 4-year-old classrooms for 10 hours. Next, they spend 10 hours in a primary grade classroom (kindergarten, first, or second grade). Lastly, candidates spend the last 10 hours in intermediate grade classrooms (third, fourth, or fifth/sixth grade). By the conclusion of this course, candidates gain an overview of the education profession, learning, and development of learners, which influences their decision to pursue an education degree. During the junior year, candidates will complete 175 hours of field experience each semester to build their knowledge base and begin to apply concepts and skills learned in methodology courses. Candidates will spend two full days in the classroom for 12 weeks each semester as part of EED 351 (fall semester) and EED 353 (spring semester). The fall semester will focus on primary grade classrooms (kindergarten, first grade, or second grade) as candidates learn the foundations of literacy and numeracy in methodology courses. The spring semester will focus on intermediate grade classrooms (third, fourth, and fifth/sixth grade) as candidates begin to apply content curriculum models, instructional procedures/strategies, and assessment practices and tools. At the conclusion of junior year, candidates commit to the education profession by successfully passing the licensure exam Praxis 7001 and identifying a grade preference for senior year. In each semester of senior year, candidates will acquire 655 hours of clinical experience by engaging in full-time clinical practice, Monday through Friday, in their assigned host school. Candidates will commence at the start of the school year to experience the preparation and beginning activities that set the stage for a successful school year. Candidates and their host teachers will collaborate and co-teach lessons in the fall semester as the candidates gain understanding, exposure, and confidence with the grade level curriculum, instructional strategies, and assessment tools. This lays the foundation for 12 weeks of full-time student teaching in the spring semester as candidates assume all the responsibilities and duties of the host teacher under their guidance and mentorship. The spring semester will end with two to three weeks of observation in other grade levels and specialty areas (special education, reading specialist, art, music, PE) to provide a well-rounded clinical experience in a host school. Concluding the program with full-time clinical experience for the entire academic year- instills candidates with valuable knowledge and skills that ensure their readiness for the teaching profession.

Enrollment and Program Completers

THIS PAGE INCLUDES:

>> [Enrollment and Program Completers](#)

In each of the following categories, provide the total number of individuals enrolled in teacher preparation programs for an initial teaching credential and the subset of individuals enrolled who also completed the program during the academic year.

(§205(a)(1)(C)(ii))

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- [Enrolled Student](#)
- [Program Completer](#)

Enrollment and Program Completers

Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- [Academic Major](#)

THIS PAGE INCLUDES:

- >> [Teachers Prepared by Subject Area](#)
- >> [Teachers Prepared by Academic Major](#)

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2024-25.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

What are CIP Codes?

No teachers prepared in academic year 2024-25

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

CIP Code	Subject Area	Number Prepared
13.10	Teacher Education - Special Education	<input type="text" value="0"/>
13.1202	Teacher Education - Elementary Education	<input type="text" value="5"/>

CIP Code	Subject Area	Number Prepared
13.1203	Teacher Education - Junior High/Intermediate/Middle School Education	<input type="text" value="0"/>
13.1210	Teacher Education - Early Childhood Education	<input type="text" value="0"/>
13.1301	Teacher Education - Agriculture	<input type="text" value="0"/>
13.1302	Teacher Education - Art	<input type="text" value="0"/>

13.1331	Teacher Education - Speech	<input type="text" value="0"/>

CIP Code	Subject Area	Number Prepared
13.1337	Teacher Education - Earth Science	<input type="text" value="0"/>
13.14	Teacher Education - English as a Second Language	<input type="text" value="0"/>
13.99	Education - Other Specify: <input type="text"/>	<input type="text" value="0"/>

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2024-25. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

[What are CIP Codes?](#)

Does this teacher preparation provider grant degrees upon completion of its programs?

- Yes
 No

No teachers prepared in academic year 2024-25

If this provider does not grant participants a degree upon completion, or has no teachers prepared, leave the table below blank (or [clear responses already entered](#)).

Program Assurances

THIS PAGE INCLUDES:

>> [Program Assurances](#)

Respond to the following assurances. Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. ([§205\(a\)\(1\)\(A\)\(iii\)](#); [§206\(b\)](#))

Program Assurances

Note: This section is preloaded from the prior year's IPRC.

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

- Yes
 No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

- Yes
 No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

- Yes
 No
 Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- Yes
 No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

- Yes
 No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- Yes
 No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

- Yes
 No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

1)Local Agency and State Needs - Our teacher candidates are prepared to work locally in Kansas, as well as other states seeking elementary education teachers. Our teacher candidates are even able to transition to tribal and public schools in their own communities. Their preparation at our university is of high quality and rigor to meet the demands of CCSS, legislation, and the unique characteristics of students they encounter. 2)Needs of the schools - Our candidates are thoroughly prepared to meet the needs of schools and curriculum as they learn best practices and current curriculum strategies and techniques from instructors through workshops, training sessions, case studies, and role-playing scenarios. 3)Special Education Teachers - Not applicable as we do not prepare special education teachers. However, all candidates are required to take EED 232 Introduction to Special Education to learn the fundamentals of special education. Details are highlighted in section 4 below. 4) Providing instruction to children with

disabilities - Candidates thoroughly examine the state and federal laws (P.L. 94-142, Section 504 and ADA). Every principle is presented and tested in each law. Candidates are required to role play an IEP meeting and create a mock IEP document. Candidates create and present a task analysis lesson focusing on one adaptive skill for a student with moderate mental retardation. In all content lesson plans, candidates are required to describe accommodations/modifications for four types of learners in their lesson plans. They are required to address all ranges of abilities. For example, dyslexia, vision impairment, behavioral disorder and gifted and talented students. Candidates are also practicing various co-teaching models for the classroom. Their instructors also model co-teaching in the classroom with colleagues. In May of 2020, we hired a new faculty member who worked as a Special Education teacher which brings a wealth of knowledge, experience, and current practices to the program.

5) Providing instruction to limited English proficient students - Candidates examine guidelines for working with ELLs, read classroom scenarios and reflect on those stories to spark discussion of effective problem-solving solutions for the classroom. Classroom discussions are integrated with the textbook outline. Examples of discussion questions are listed - How do I assess student's English, how do I get my reluctant speakers to speak English, how do I teach grade level content to English beginners, and how do I help students build learning strategies? Candidates also observe an ELL classroom and interact with the ELL teacher.

6) Providing instruction to children from low-income families - Candidates reflect and respond to various real classroom scenarios. Candidates examine and explore solutions for children who have experienced poverty or whose learning may be affected by socio-economic status.

7) Urban and rural schools - Candidates engage in group dialogue sessions after reading articles dealing with urban and rural education topics. The groups then share those discussions with the class. There are many times when candidates expand their knowledge by providing insight into their own urban or rural school experience. The strength of meeting these assurances lie in our field and clinical experiences. Our candidates are placed in school settings where most of these characteristics are present in the school and community. Candidates observe veteran teacher interactions with students and eventually experience those interactions when in the student teaching role. Candidates also assume the responsibilities and duties of their cooperating teacher during the student teaching semester, which means they attend all meetings regarding professional development and student issues such as SIT meetings, IEP meetings, parent/teacher conferences, etc. This provides candidates with multiple opportunities to work with children from various backgrounds and abilities.

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

[\(§205\(a\)\(1\) \(A\)\(i\), §205\(a\)\(1\)\(A\)\(ii\), §206\(a\)\)](#)

Note: Last year's goal and the current year's goal are preloaded from the prior year's IPRC.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- [Quantifiable Goals](#)

THIS PAGE INCLUDES:

Report Progress on Last Year's Goal (2024-25)

1. Did your program prepare teachers in mathematics in 2024-25?

If no, leave remaining questions for 2024-25 blank (or [clear responses already entered](#)).

- Yes
 No

2. Describe your goal.

3. Did your program meet the goal?

- Yes
 No

4. Description of strategies used to achieve goal, if applicable:

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

6. Provide any additional comments, exceptions and explanations below:

We prepare elementary educators in grades preK-6th to teach all content areas - Language Arts and Reading, Math, Science, and Social Studies. Candidates take the following sequence of math courses to prepare them for teaching mathematics in a general education classroom – EED 231 Math Methods I, 3 credits, EED 333 Math Methods II, 3 credits, EED 337 Math Methods III, 3 credits. Candidates must pass each course with a “C” or higher

Assessment Pass Rates

THIS PAGE INCLUDES:

>> [Assessment Pass Rates](#)

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

Low-Performing

THIS PAGE INCLUDES:

>> [Low-Performing](#)

Provide the following information about the approval or accreditation of your teacher preparation program. ([§205\(a\)\(1\)\(D\)](#), [§205\(a\)\(1\)\(E\)](#))

Note: This section is preloaded from the prior year's IPRC.

Low-Performing

1. Is your teacher preparation program currently approved or accredited?

- Yes
- No

If yes, please specify the organization(s) that approved or accredited your program:

- State
- CAEP
- AAQEP
- Other specify:

2. Is your teacher preparation program currently under a designation as "low-performing" by the state?

- Yes
- No

Use of Technology

THIS PAGE INCLUDES:

>> [Use of Technology](#)

On this page, review the questions regarding your program's use of technology, and update as needed.

Note: This section is preloaded from the prior year's IPRC.

Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. ([§205\(a\)\(1\)\(F\)](#))

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction

Yes

No

- b. use technology effectively to collect data to improve teaching and learning

Yes

No

- c. use technology effectively to manage data to improve teaching and learning

Yes

No

- d. use technology effectively to analyze data to improve teaching and learning

Yes

No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

The integration of technology within the ETEP curriculum, instruction, and assessment occurs in all education courses at all levels of the program. Faculty play an integral role as they model, facilitate, and teach colleagues and teacher candidates about various technology platforms, resources, instructional tools, and models. The platforms being utilized are Blackboard, Microsoft Teams, Google Suite, and Zoom. The technology resources and interactive tools consist of Kahoot It, Pear Deck, Nearpod, Prezi, Seesaw, Epic Books, Reading A-Z, Study.com, Quizlet, Augmentative and Virtual Reality websites and virtual manipulatives (Toy Theater | Fun Online Educational Games for Kids and Virtual Manipulatives for Math(didax.com)). These resources and tools are not only embedded in the instruction of content, but teacher candidates are also required to use and model the resources and tools in their course assignments, microteaching, lesson plans, and the Kansas Teacher Work Sample (KTWS) - a capstone project. Candidates and faculty are experimenting with and utilizing Swivl hardware, tools, and resources to deliver lessons through various online models such as asynchronous, synchronous, hybrid, and hyflex classrooms. Candidates are expected to deliver lessons in various models to support diverse learners and their unique characteristics. The use of AI platforms to aid teachers is being explored. Candidates also utilize the interactive CISCO whiteboard, die cut machine, and laminator.

Teacher Training

THIS PAGE INCLUDES:

>> [Teacher Training](#)

Provide the following information about your teacher preparation program.

(§205(a)(1)(G))

Note: This section is preloaded from the prior year's IPRC.

Teacher Training

1. Provide a description of the activities that prepare general education teachers to:

a. Teach students with disabilities effectively

In EED 223 Introduction to Special Education, candidates are exposed to IEP documents, IEP meetings, and IEP referral process. They also experience the process via scenario situations and mock IEP meetings. Candidates are also provided with knowledge about the various disabilities - prevalence, characteristics, accommodations, instructional strategies, and assessment practices. The accommodations, instructional strategies and assessment practices are further enhanced in all methodology courses and lesson planning as candidates must provide differentiated instruction for four or more types of learners. Candidates are familiar with all state and federal legislation related to special education (PL 94-142, Section 504, ADA, etc.). Candidates are taught the various co-teaching models throughout the program as faculty model and co-teach several courses. Candidates are required to practice co-teaching with peers in courses, so they are comfortable with applying the co-teaching models in their field and clinical experiences. The faculty member who is responsible for teaching EED 223 Introduction to Special Education has a master's degree and work experience as a Special Education Teacher.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

During the clinical residency experience, teacher candidates can observe and participate in IEP teams as they assume and follow the roles and responsibilities of their host teacher. Depending on the school, some candidates can be active members of an IEP team and in others the candidate are active observers. Those candidates who are active members may also be involved in the gathering and recording of data. Candidates are also involved in student intervention teams (SIT) if a student is identified under Section 504.

c. Effectively teach students who are limited English proficient.

Candidates are encouraged to address strategies for working with students who are limited English proficient in their lesson plans as most of the candidates are placed in schools where there is limited or no enrollment of students with limited English. Candidate who are placed in schools with limited English proficient students work collaboratively with the host teacher and school's ELL resource person to plan lessons that are embedded with ELL strategies to assist the learner. For example, some candidates are familiar with preparing newsletters and notes in both English and Spanish and creating activity sheets and materials that contain Spanish texts, more visuals, and personal copies of ELL Learner so focus can be on the document verse transferring text to paper. Some candidates are role-playing Parent/Teacher Conference in Spanish to prepare for future Parent/Teacher Conferences.

2. Does your program prepare special education teachers?

- Yes
 No

If yes, provide a description of the activities that prepare *special education teachers* to:

a. Teach students with disabilities effectively

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

c. Effectively teach students who are limited English proficient.

Contextual Information

On this page, review the contextual information about your program, and update as needed.

Note: This section is preloaded from the prior year's IPRC.

THIS PAGE INCLUDES:

>> [Contextual Information](#)

Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

There is a long history associated with this university. Haskell officially opened its doors in 1884 under the name of the United States Indian Industrial Training School. The purpose of the school was to provide an agricultural education to young American Indian children in grades one through five. By 1927, high school classes were being offered. In 1935 another transition was made as Haskell began offering vocational-technical courses. The last high school class to graduate was in 1965. In 1970, Haskell began offering junior college curriculum and became known as Haskell Indian Junior College. In 1992, the National Haskell Board of Regents recommended a new name to reflect its vision for Haskell as a national center for Indian education, research, and cultural preservation. In 1993, the Assistant Secretary for Indian Affairs approved the change, and Haskell became "Haskell Indian Nations University." Haskell Indian Nations University is the only inter-tribal university in the United States. Students who attend Haskell represent many federally recognized tribes across the United States making the student body the most diverse group imaginable. Haskell offers four baccalaureate programs in elementary education, American Indian Studies, business administration, and environmental science. Haskell still offers associate degree programs in four areas education, business, science, and the arts. The Elementary Teacher Education Program was the first baccalaureate program offered at Haskell Indian Nations University. The ETEP was established to prepare American Indians and Alaska Native teachers to return to their native communities and teach. The first cohort to graduate was in 1997. At the end of 2024-25 academic year, we will have 202 program completers from the Elementary Teacher Education Program from Haskell Indian Nations University. The School of Education faculty and SOE Advisory Board continue to work collaboratively to ensure our mission and vision are being met. The mission of the Elementary Teacher Education Program at Haskell Indian Nations University is to provide a quality Elementary Teacher Education Program grounded in traditional and contemporary American educational philosophies and theories, current best practices, and K-6 curriculum standards while integrating Native American cultural perspectives to foster equitable learning communities for children. The SOE Vision is dedicated to developing Native Leaders who are critical thinkers, high achievers, reflective practitioners, and caring leaders for tomorrow's learners. In April 2020, we were granted CAEP accreditation from spring 2020 to spring 2027 with the next accreditation visit in the fall of 2026. We also received State accreditation from Kansas.

Supporting Files

No files have been provided.

You may upload files to be included with your report card. You should only upload PDF or Microsoft Word or Excel files. These files will be listed as links in your report card. Upload files in the order that you'd like them to appear.
